**UOGA UOGA**  
**PRODUCT CATALOGUE 2018**

The beginning of this year was really exciting time for Uoga Uoga as we introduced more than ten new natural make-up products to our range. I personally developed the formulas and I must tell you- that was a long and hurtful process (especially with mascara :)) In the end, we came up with soft, lipbalm-like lipsticks, each enriched with a different berry extract (Uoga Uoga means "berry berry" in Lithuanian). The success of our natural creamy highlighter among the modern fashionistas was a surprise, while the mascara, even though with gentler coverage, has already found the followers among people with very sensitive eyes.

Now we are happy to present even more new products. The major one for us as a company is the sun protection category. Firstly, our well-known top product Natural Mineral Foundation with amber was tested and proven to have an SPF of 15! Yay! We also launched a rich 100% natural SPF 30 cream for the whole family, and the team decided to give it two faces- Penguin in the Sun (targeted for the family) and more feminine Dolce Vita. This product category is a break-through for us, and we expect to launch more sun products next year.

We also launched addition to our luxurious intensive skin care line with cranberry extract and hyaluronic acid- face elixir and essence; and a new line with tea tree oil for problematic skin. Read more about them on the pages of this catalogue.

I can't express how happy our team is that you are with us, and for those who are new to Uoga Uoga, that you found us. We are still a family owned company, we still produce everything by hand from the very pure and natural ingredients, we use a lot of local (Baltic) ingredients, such as natural amber and berry extracts, we are still cruelty-free, and we have commitment to surprise you constantly with new great products. Please try them and let us know how you like them!

Lena – Uoga Uoga founder

# UOGA UOGA NATURAL MINERAL MAKE-UP

uoga uoga.  
YOU'RE SO  
BEAUTIFUL!

We are proud of our mineral make-up line, because we managed to create some really great products, and the best part of it – they are natural! We also use ingredients that are special to our home land: all of our powders contain **pure Baltic amber**, which is used for beauty here for centuries, and is known for its anti-bacterial properties.

Our lip products are great for their rich texture and cruelty-free colours. In addition, each of them has its own **berry extract** for vitamins and aroma.

In 2018 we are launching new products, including new lipsticks, finishing powders and mascara. Make sure to check those out!

The dawn on Mars  
Raised the day.  
Awakened desire  
To live with you no matter where.

## Uoga Uoga foundation powders with amber - matt and natural

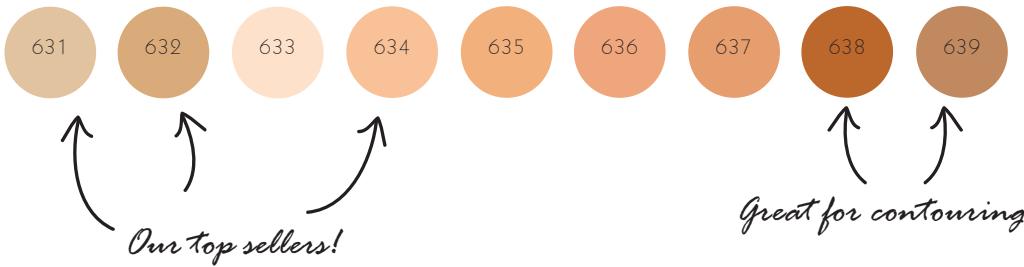

Our 100% natural foundation powders offer a light matt coverage, which looks very natural on you and does not create a mask effect. Choose from the palette of 9 shades. More global colours are coming later this year!

Why you'll absolutely ❤️ Uoga Uoga foundation powders:

- Enriched with pure Baltic amber, which has anti-bacterial properties
- 100% natural origin ingredients (no synthetic colours, no silicones, no fragrance)
- Matt natural coverage
- SPF 15
- Vegan and cruelty - free
- Suitable for sensitive skin
- White clay provides good oil control
- Stays all day long

Check out our super comfortable cruelty-free foundation brush!

Natural foundation powder shades:

# Uoga Uoga lip products with berry extracts - simply yummy!

We have a whole range of natural products to help accent your lips. Whether you want them matt or glossy, in fashionable nude or a statement cherry shade, we get you covered!

Why you'll ❤️ our lip products:

- 100% natural origin ingredients and COSMOS NATURAL certified products
- soft rich texture and smooth coverage
- luxurious oils, such as argan, raspberry seed, jojoba oils for an extra nourishing formula
- cruelty-free colours (we don't use carmine)
- each product has its own berry extract to enrich your lips with vitamins

Check out our colourless lip balm with sea-buckthorn oil if you can't choose your shade today.

We have a small comfortable lip brush with a cap, which you can take with you wherever you go.

Natural lip & cheek colours:

Natural lip sticks:

Natural lip glosses:

How should I give you a sign  
When the time of white flags is long gone?  
Cherry lips.

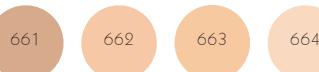

What is sakura  
In the shadow of your cheeks?  
It's just a tree.

## Natural tricks for a perfect skin tone

A healthy even skin tone and a touch of refreshing blush – that's the base of any natural make-up. We have developed a whole range of products to help you achieve the best results, starting with concealers and finishing with the... (not surprisingly) finishing powders :)

- **Make-up primers / Tinted moisturising creams** – lightly textured, enriched with precious jojoba, argan and almond oils, these creams are a perfect make-up base. They can also be used on their own as a non-greasy moisturising cream with a light shade. Don't expect heavy coverage, but it will give you a slight shade and even out your skin tone.

Make-up primers /  
Tinted moisturising creams:

- **Concealers** – we have concealer sticks, which will help to fight those red spots or other small skin imperfections.

Natural concealer sticks:

We also present the new liquid concealers, which are perfect for the sensitive skin under the eyes, but you can use them on other face parts as well.

Natural liquid concealers:

- **Blush and finishing powders with amber** – choose from the range of matt blush powders and different finishing powders for the perfect look. Don't forget, that you can also use our lip and cheek colours as a creamy blush!

Natural blush powders:

*Awesome shade*

- **Highlighter** – we have a creamy highlighter and a dry highlighter powder to choose from, or you can use them both one on top of the other.

Natural eye-shadows with amber:

## Tell the story with your eyes!

Even if you wear a natural look everyday, a bit of eyeshadows and a mascara can add extra expression to your eyes. We have developed a palette of 20 shades of our mineral eyeshadows with amber. They are very well pigmented, most colours are matt, but we also have some exciting shimmering shades. As they are in a loose powder form, you can mix them with each other.

Our eyeliners are great for the soft lines due to their waxy consistency. The Forest Path brown shade is also very comfortable for shaping your eyebrows.

Uoga Uoga mascara with blackberry extract is based on the natural formula and defines your eyelashes neatly. It is not water-proof, but girls are meant for a laugh not tears, am I right?

# UOGA UOGA FRESH NATURAL COSMETICS

## Intensive skin care line with cranberry extract and hyaluronic acid

We have created this intensive skin care line for women who live a life full of emotions. We have combined pure and natural ingredients, which you have already tried in our traditional products, and enriched them with the new active ingredients, which effectiveness is guaranteed by the French laboratory that developed them. Nature gifts such as floral acids from the extract of Jamaican hibiscus, phytosterols from fern extract, hyaluronic acid and cranberry extract will take very special care of your tired skin.

The Uoga Uoga intensive skin care line consists of six products:

- two day creams and one night cream with cranberry extract and hyaluronic acid
- face scrub enriched with flower acid, oat extract and pure amber
- face mask with flower acid and cranberry extract
- serum for the skin around the eyes with luxurious oils and hyaluronic acid

Why you'll ❤️ our intensive skin care line:

- luxurious oils
- active ingredients
- no silicones
- no parabens
- no synthetic colours or fragrances
- not tested on animals
- vegan

**The precious moments  
leave the deepest marks...**

**NEW!**

## Energy bombs for the skin in need

Elixir and Essence are the new super additions to our intensive skin care line.

### Natural Face Elixir with Cranberry Extract and Argan Oil

In this elixir we combined the most effective oils that fight skin fatigue, aging and wrinkles. Argan oil is an important source of vitamin E and protects skin from free radicals and harmful environmental effects. Rosehip oil contains alpha-linolenic acids and stimulates skin regeneration. Very rare, but one of our favorites – cranberry oil – has an exceptional quality – it has the same amount of omega 3 and omega 6 fatty acids. Fatty acids are essential for proper functioning and appearance of the skin. Cranberry oil also contains vitamin E, therefore it has extremely effective skin regeneration qualities, gives skin softness and silky tenderness.

### Natural Face Essence with Cranberry Extract and Hyaluronic Acid

When we talk about skin that requires intensive care, we notice that sometimes it needs higher concentration of active ingredients than a day cream, and that is when the Essence comes into play.

We enriched it with the higher concentration of phytosterols, which were clinically proved to accelerate creation and stabilisation of epidermis and skin underneath it (derma). This way epidermis and derma bond and make skin more firm and elastic. Hyaluronic acid has low molecular weight which ensures a lasting moistening effect.

**NEW!**

## New skin care line with tea tree oil is ideal for problematic skin:

My Best Friend – gentle face wash with tea tree oil and flower acid

I am No Sweetie – light face cream with tamanu and tea tree oils

Wild Weed – cleaning toner made of 6 herbs macerated in alcohol for at least one month

Happy Rocket – anti-blemish stick with tamanu and tea tree oils

# Face care

Why you'll ❤️ it:

- We use natural unrefined oils for best nourishing effect: you'll find classic almond, apricot and avocado, as well as luxurious jojoba, argan and raspberry seed oils in our creations.
- We use only 100% natural essential oils for aroma, never synthetic fragrances!
- All of our face creams are COSMOS NATURAL or COSMOS ORGANIC certified.
- If the product contains water, we use preservatives for your safety, but they are always approved by Cosmos Organic standard, which means they are safe for you.
- We use berry oils and extracts to enrich products with vitamins.
- Our product not only have fun names, they are fun to use as well.

Our skin care range includes:

## Face creams

Especially nourishing creams for dry or normal skin contain more than 50% of oils and only a small portion of water. Give them time to sink in, but you'll be rewarded with the softer moisturised skin. Choose between **Hot Winter** with shea and sea-buckthorn oils and **Love Story** with shea and avocado oils.

We also have lightly textured emulsion creams specifically formulated with the oils which suit each skin type:

For dry skin: **Roses in Bloom** with macadamia and mango oils and rose absolute, **Summer Storm** with argan and jojoba oils and bergamote essential oil.

For normal skin: **Orange Cloud** with shea and almond oils and orange essential oil, **Queen of Hearts** with apricot and argan oil and lavender essential oil.

For oily skin: **Velvet Skin** with hazelnut oil and grapefruit essential oil, **Lilac Dream** with apricot and hazelnut oils and ylang ylang essential oil.

SMILE  
EVERYDAY!

**Night care:** Our cream **The Queen of Spades** with almond and lavender does its wonders of moisturisation while you sleep and is sure one of our top selling products.

#### Eye creams

For the sensitive skin around the eyes, choose either the light **Green Refreshment** with avocado oil and cucumber extract, or a nourishing balm **Look Coco** with the shea and coconut oils.

#### Cleansers and scrubs

**Go nuts** – is a dry powder with the white clay, ground almonds and sunflower seeds, which works as a very mild face scrub. Just mix it with a bit of water and massage your face.

**Naked in the fields** – is another dry product with white clay and oat flour, which is a natural facial wash, but you can also leave it for 10 min on the face, and it will work as a gentle cleansing mask.

**Great night** – is a mix of almond, apricot and orange oils, which is great for taking your make-up off in the evening. You can leave it as a night oil on your face for a nourishing effect.

#### Lip balms

Our 100% natural lip balms are based on natural oils, such as castor, jojoba, avocado, which provide softness to your lips and protection in the wild weather.

**Rosalinda, Mi Amor** is with avocado and rose oils, **Pirate's Secret recipe** with seabuckthorn, honey and grapefruit oil, **Kiss me Honey Honey** is with honey and very subtle mandarin aroma, while **A Hint** has a warm rose shade. All four are based on the beeswax, which provides a rich texture and softness.

**I'm Not There** is a vegan version, based on soya wax and has no added aroma for especially sensitive people.

# Natural body care

## Why you'll ❤️ it:

- We use mild biodegradable washing agents in our shower gels. They are approved by COSMOS Organic standard and are safe both for you and the fish in the sea.
- You will not find any synthetic fragrance in our body products, only 100% pure essential oils.
- When we want our product pink, we only use natural minerals for colouring and never synthetic colourants!

\*For best foaming, use the shower gels on a sponge.

## Body and Hand Creams

Choose nourishing body butters like: **Chilling on a Full Moon** with lavender and raspberry extract, **Sun is Dancing Quietly** with orange oil and blackcurrant extract. If you'd like something lighter, we have body lotions in a comfortable pump packaging: refreshing **Mojito in the Morning** with lime and mint essential oils or fruity **Strawberry Explosion** with strawberry extract.

## Shower gels

All our shower gels are based on the mild washing agents, and are enriched with oils to be especially gentle on the skin. For better foam, use on a sponge. Choose between, or use different each day: **Jump into Summer** with strawberry extract, **Make it Happen** with lime and mint oils, **Hey, Beautiful** with lavender oil and **Round and Orange** with orange oil.

## Body scrubs

**How Cool is That** — is a natural body scrub with sea salt and refresing coctail of lime and mint oils.

**Panama and Sandals** is much sweeter (both in smell and taste :)) as it is based on the brown sugar and enriched with strawberry extract and strawberry seeds for best exfoliation.

Both scrubs have plenty of olive oil, so after the shower you could even skip the body cream.

## Soaps

As all other Uoga Uoga products, we make our soaps by hand using the cold process. We aim to overfat them by 8%, so that they are less drying than conventional soaps. We don't use the palm oil, so the monkeys are safe!

The range includes: **Bravo** with bamboo charcoal and juniper oil, **I'm no Sweetie** with mint and lime oil, **Care for Coffee?** — exfoliating soap with coffee and mint oil and **Ciao Strawberry!** with strawberry extract.

**NEW!**

## Dolce Vita

Dolce Vita is another more feminine face of our SPF 30 cream. We figured, that sometimes a lady wants to have something elegant in her beach basket, so we offer a choice of more girly look of our cream.

## It's Classic

Natural nourishing body cream with rose and rosehip oils

The aroma of this body cream will cast a feminine spell on you and will cover your body with charm! To create this luxurious scent we used a very special Damascus rose water and absolute as well as geranium essential oil. We also combined nourishing olive and sesame oils, as well as shea butter and argan oil to keep your skin hydrated and to provide it with vitamin E. To keep the skin soft, we used rare but valuable rosehip oil which is also great for mature skin, because it has regenerating qualities and makes your skin more elastic. Aloe vera works to keep the skin moisturised.

## Natural hair care

Why you'll ❤️ it:

- Gentle washing agents safe for you and the fish: we use only surfactants approved by COSMOS Organic standard.
- Our shampoos are enriched with herbal extracts suitable for certain hair types
- We never use synthetic fragrances, only pure essential oils.
- Our hair masks and conditioners are packed with nourishing oils, which make your hair look healthier and stronger.
- Vegan and cruelty-free.

Choose a natural shampoo for your hair type: **Rowan Day** with rowan and rosehip extracts for dry hair, **Fairy's Bouquet** with blackcurrant and birch extracts for normal hair and **Lingonberry Ribbon** with lingonberry and rosemary extract for oily hair.

After shampooing, use our moisturising hair conditioner **Finally!** with lingonberry and rosemary extract for a better hair strength and control. It is suitable for everyday use. If you want extra care, use **Rapunzel** hair conditioner – mask with rowan and rosehip berry extracts.

To take a real good care of your hair, find some time to apply a natural hair mask **Jungle Elixir**. It is based on olive and castor oils and is great for making your hair stronger and more shiny!

uoga uoga.  
WHAT A  
FANTASTIC  
DAY!

## Baby care

We have a lot of mums in Uoga Uoga team, so we know first hand how important it is to use safe and natural cosmetics on the delicate skin of your baby. That is why our baby range contains only pure unrefined oils and very little of aroma. The whole bunch of funny characters on the product packaging can become your child's friends during the bath time.

**Crab in a Cool Hat** is organic nourishing oil blend with a very simple but effective ingredient mix. It is great for protecting your child's cheeks, when going outdoors, and also for the skin patches, which need to be protected from the wetness, like bottom, baby wrinkles on hands and legs, skin behind the ears.

**Crocodile from the Nile** is one of the most gentle and soothing natural soaps made with shea butter and lavender that is suitable for sensitive baby skin. It contains only highest quality cold-pressed and unrefined oils. Soap gently cleanses the skin while not drying it, whereas light lavender scent has relaxing qualities.

**Turtle who likes to hurtle:** For this organic baby wash we used a very gentle cleanser which does not irritate or dry the skin. We added valuable coconut and almond oils as well as the sea buckthorn extract which has calming qualities. Mandarin scent will make the washing process even more enjoyable.

**Bucket of clouds** – this bath foam will fill your bath with happy bubbles, especially if you use it under tap or shower stream. Hold on! It is also enriched with natural olive oil so it does not dry the skin. We scented our foam with natural essential oil and gave it a green colour (still natural!). Forget all the bubbles that contain SLS and scoop the clouds with buckets!

**NEW!**

## Penguin in the sun

This protective sun cream is suitable for the whole family, including children. It provides immediate protection and is made of completely natural ingredients!

100% natural zinc oxide creates SPF 30 protection, which unlike synthetic sunscreen filters does not absorb the sun's harmful rays, but reflects them.

This cream protects your skin from both UVA and UVB rays. The cream contains valuable jojoba, sesame and raspberry seed oils that nourish and soften the skin. We also used beeswax in the formula for its water resisting qualities and in order to create a protective layer on your skin.
