

Facial Care

Our flexible facial care system offers an ideal care combination for every skin type. In all care steps from cleansing to special care, the regenerating, moisturising and soothing effect of aloe vera unfolds.

Our toners not only prepare your skin for the following care, but are also suitable as pampering moisture sprays for in between.

We offer our creams in three different lipid levels with the same concentration of active ingredients: light, medium and rich. For particularly sensitive skin, the three creams are also available in a version without essential oils.

Our special care products optimally support your skin in intensive phases. They protect against external influences and bring stressed skin back into balance.

cleansing gel

- cleanses deeply
- leaves the skin refreshed and clarified

Art.-No: 40201

extra rich cream & mask

- provides the skin with extra-rich nutrients
- strengthens the lipid barrier

Art.-No: 23930

Filling quantity: 30 ml

Effects The nourishing care can be used as a face cream or as a mask and provides the skin with extra-rich nutrients. Pure aloe vera juice moisturises the skin and, combined with sea buckthorn extract, has a regenerating and calming effect. Cocoa butter and rich oils from avocado fruits, grape seeds and milk thistles are intensively nourishing and strengthen the lipid barrier. Omega 9 ceramides from olive oil improve skin elasticity and help to prevent fine lines caused by dryness. The extra-rich formula leaves the skin well nourished, relaxed and calmed. Especially suitable for dry and stressed skin.

Usage Use as a cream: After cleansing and toning, apply evenly to face, neck and décolleté and gently massage into skin. Use as a mask: Apply more generously once or twice a week as needed. After 10 to 15 minutes, gently massage residues and, if necessary, remove with a tissue.

Ingredients (INCI) Aloe Barbadensis Leaf Juice*, Persea Gratissima Oil*, Olea Europaea Fruit Oil*, Cetearyl Alcohol, Butyrospermum Parkii Butter*, Cistus Incanus Flower/Leaf/Stem Extract*, Hippophae Rhamnoides Fruit Extract*, Myristyl Alcohol, Alcohol*, Prunus Armeniaca Kernel Oil*, Theobroma Cacao Seed Butter*, Sodium Lactate, Silybum Marianum Seed Oil*, Vitis Vinifera Seed Oil*, Glyceryl Stearate SE, Olive Oil Aminopropanediol Esters, Hippophae Rhamnoides Fruit Oil*, Rosmarinus Officinalis Leaf Extract*, Helianthus Annuus Seed Oil*, Tocopherol, Sodium Cetearyl Sulfate, Ascorbyl Palmitate, Sodium Phytate, Levulinic Acid, P-Anisic Acid, Sodium Levulinate, Glycerin, Lavandula Angustifolia Oil*, Sodium Hydroxide, Parfum**, Limonene, Linalool, Geraniol, Citral, Coumarin, Benzyl Benzoate, Citronellol.

age protect

age protect

with the antioxidant effects of aloe vera blossom

This innovative anti-ageing range combines powerful natural ingredients to effectively reduce the visible effects of skin ageing.

Alongside a base of pure aloe vera juice, the main ingredient is the precious nectar of aloe vera blossom. New and unique in the cosmetic market, Santaverde processes this rare active ingredient into an antioxidant beauty elixir. The nectar offers protection against free radicals, oxidative stress and strengthens the skin's resistance.

A unique complex of active ingredients from plant roots, inspired by European phytotherapy and traditional Chinese medicine, reduces the appearance of pigmentation problems, soothes hyperpigmentation and stimulates the synthesis of collagen.

Fine oils of apricot and primrose strengthen the skin's elasticity, leaving it relaxed and supple.

The intensively regenerating age protect range works synergistically, providing demanding skin with everything it needs for a radiant, gently smoothed and even complexion.

XINGU age perfect

XINGU age perfect

Anti-ageing power from the Brazilian rainforest

The name of the product range, XINGU, symbolises the origin of the active plant substances it contains: the rainforest along the course of the Rio Xingu offers a prolific, vibrant plant world for our exceptionally powerful anti-ageing products.

XINGU age perfect combines pure plant juices from aloe vera and cashew plants with a highly effective complex of hand-picked Brazilian beauty-boosting plants to form a unique elixir, rich in active ingredients.

The synergetic interplay of all the active substances leaves the skin feeling noticeably firmer, softer and younger and gives it a fresh appearance.

The skin is nourished deep down, tightened and firmed, and shines in new perfection.

Proven performance against the no. 1 skin-ageing factor: oxidative stress

The antioxidant performance of XINGU age perfect is proved and measured using the ORAC method (oxygen radical absorbance capacity). ORAC describes the ability of a product to absorb oxygen free radicals.

XINGU age perfect cleansing balm

- cleanses extra gently
- maintains the sensitive hydro-lipid-balance

Art.-No: 27070

Filling quantity: 100 ml

Effects Rich facial cleanser with a highly effective complex of Brazilian beauty-boosting plants cleanses extra gently, removes make-up and dirt particles and prepares the skin for the following care. An elixir from aloe vera leaves and cashew fruits, high in active ingredients, prevents the skin from moisture loss and neutralises free radicals. Nourishing nut and seed oils from andiroba, babassu, coconut and brazil nuts keep the skin smooth, replenish the skin's lipids and maintain the sensitive hydro-lipid-balance. The gentle formula gives a clean and silky skin feeling. Especially suitable for demanding and dry skin.

Usage Apply in the morning and in the evening on wet face and gently massage. Afterwards rinse off with warm water.

sun protect

sun protect

Mineral sun care with active DNA protection

The sun protect product line combines natural sun protection with intensive moisturising care.

The 100 % mineral filters immediately protect against UVA and UVB rays, are free from nanoparticles and coral-friendly. Ectoin protects the DNA of the skin cells and, combined with carrot extract, neutralises free radicals. Pure aloe vera juice, which is the main component of the formulations, has an intensive moisturising effect, while high-quality oils have a caring effect. The light, water-resistant textures absorb quickly without whitening.

After sunbathing, the after sun care pampers the skin with a pleasant cooling effect, soothes skin irritations and has a regenerating effect.

sun protect cream SPF 20

- with active DNA protection
- hydrates with hyaluronic acid

Art.-No: 33010

Filling quantity: 50 ml

Effects The light sun cream with active DNA protection reliably prevents the skin from damages caused by sun radiation and provides it with natural moisture and care. The 100 % mineral filters offer immediate protection against UVA and UVB rays, are nanoparticle-free and coral-friendly. Pure aloe vera juice and hyaluronic acid provide intensive moisture and hydrate long lasting. Antioxidative extracts from carrot and apple neutralise skin-damaging free radicals. Ectoin actively protects the DNA of the cells. Coconut and jojoba oil have a caring effect and help to maintain the skin's elasticity. The delicately scented and water-resistant cream absorbs quickly without whitening and provides a pleasant skin feeling. Suitable for all skin types.

Usage Apply generously before sunbathing and renew regularly, especially after bathing. Avoid intense midday sun or wear protective clothing. Even sunscreens with a high sun protection factor do not offer complete protection against UV rays. Keep babies and young children out of direct sunlight, use protective clothing and sunscreens with a high SPF.

after sun recovery lotion

- cools and regenerates sun-stressed skin
- supports the skin's own DNA repair

Art.-No: 33030

Filling quantity: 100 ml

Effects The caring after sun lotion pampers sun-stressed skin with a pleasant cooling effect and supports its regeneration. Pure aloe vera juice cools immediately, provides the skin with moisture and, combined with meadowsweet, soothes sun-induced skin irritations. Carrot and sea buckthorn extract have an antioxidant effect and thus support the skin's own DNA repair. Caring shea butter and almond oil prevent the skin from drying out, regenerate and strengthen its elasticity. The light lotion is quickly absorbed, reduces feelings of tension and leaves the skin recovered, smooth and soft. Suitable for all skin types.

Usage Apply to cleansed skin after sunbathing and massage in gently. The application can be repeated as often as required.

SANTAVERDE
Pure aloe vera

aloepur 100 % pure organic aloe vera direct juice

- from hand-peeled aloe vera leaves
- from own cultivation in Andalusia

Art.-No: 1300

Filling quantity: 330 ml

The power of aloe vera The pure juice of the aloe vera plant has been used in many cultures for centuries, treasured as a natural remedy which improves overall well-being.

Home cultivation and processing Santaverde products contain our selfcultivated, pure aloe vera juice, which comes directly from our crops in Andalusia. We have been cultivating organic aloe vera in the mild climates of southernmost Europe for over 30 years, harvesting leaves with an average minimum content of 1.200 mg Aloerose per liter. The reason for this lies in the ideal climate of Andalusia, the organic cultivation, the selection of leaves, ready to harvest and the processing of the leaf fillets by hand. We monitor the purity and quality of our products from the plants' cultivation until the juice has been bottled and is ready to drink.

Ingredients 100% pure aloe vera direct juice from our own certified organic plantation.

Recommended intake Drink 50 ml aloepur, either undiluted or mixed with mineral water or fruit juice, daily before breakfast. The daily recommended amount of 50 ml may be doubled or tripled as required. Taking this juice should go along with a varied and balanced diet and a healthy way of life. Refrigerate after opening. Perishable after opening. The naturally cloudy juice contains natural suspended matter, which may result in residues. Shake well before use.

aloe vera leaf

Aloe barbadensis Miller from our own certified organic cultivation

Art.-No: 4200

Weight: 600 - 800 g

The power of aloe vera Long before the Europeans discovered this plant it was used by native people to support the purification and regeneration of the body, internally and externally. The -at a first glance cacti similar- plant belongs to the lily family. It is a succulent plant, that has the possibility to store enormous amounts of moisture and nutrients in their leaves and thus can survive long periods without water or earth.

The fresh plant leaf comes directly from our own certified organic cultivation on our finca in Andalusia. It has captured and stored an abundance of vitality and moisture and pure energy from the sun. Its purity and extraordinary effects on the skin and entire body make it ideal for internal and external use.

Effects For skin care treatment Aloe has a cooling, soothing and antipruritic effect when applied to the skin. It assists in the reduction of skin irritations and skin inflammations. The pleasant cooling and soothing effects of Aloe are especially beneficial for sunburn and insect bites. In addition pure Aloe Vera provides intensive moisture and supports the skins natural regeneration. It contains an abundance of active ingredients including antioxidants, known to provide effective protection against the effects of premature ageing of the skin.

The inner leaf fillet can also be used for drinks or you can eat it. Aloe Vera is a holistic food which contains an abundance of important active ingredients. Aloverose (in literature Acemannan is used as the synonym for this ingredient) is the most important one. It is the ingredient that nutritionists and dermatologists point out as a critical ingredient for positive effects on the body, both internally and externally.

Usage Thinly sliced and placed on the skin, the fillet is an intense hydration pack for the skin. Cut into small pieces, it can be consumed pure or be enjoyed with fresh fruits as mixed drink. Fresh and pure as it gets!

aloe vera baby plant

Aloe barbadensis Miller from our own certified organic cultivation

Art.-No: 4210

Height: approx. 30 cm

About the plant Aloe Vera The Aloe Vera (botanical name: Aloe barbadensis MILLER or Aloe Vera LINNE) belongs to the family of liliaceous plants. The Aloe Vera is a succulent, which means that the plant is able to store enormous amounts of water and nutrients in its leaves and can survive a long time without water or soil.

Aloe vera baby plants from our finca in Andalusia are between 6 - 12 months old and approx. 30 cm high. An Aloe Vera plant needs 5 years of growing to develop the optimal amount of active substances. For the time until your plant gets mature you can obtain fresh Aloe Vera leaves from mature plants at Santaverde.
