ABOUT BALM BALM

AT THE BEGINNING

Glenda Taylor was the founder of Balm Balm. She was an aromatherapist, perfumer and natural formulation consultant. She founded Balm Balm, a 100% organic skincare company in 2005. Balm Balm is the result of Glenda's dream to create an affordable 100% organic skincare range with wide distribution.

We believe that natural & organic beauty should be accessible to everyone, and we're constantly working on new products with our customers in mind. Feedback is always appreciated from our trade customers and the customers buying in stores.

All products are made by hand in the UK by a small, dedicated team.

We are a family company and try to make as Green a footprint as possible with Balm Balm. We use recyclable packaging and are proud that all new packaging has been of FSC approved source and that our manufacturer is a Carbon Neutral company.
